2 Reason for Field Safety Corrective Action (FSCA)*	
	1. Description of the product problem*
	Unlikely presence (<0,1%) of trace metals in the syringe stopper used in Steriflush® Prefilled 0.9% Sodium Chloride Syringes, which could potentially generate extremely small brown particles.
	2. Hazard giving rise to the FSCA*
	N/A
	3. Probability of problem arising
	Possible to occur - however, the risk is being mitigated to Improbable.
	4. Predicted risk to patient/users
	No serious injuries and or death could occur due to the failure mode associated with this.
	5. Further information to help characterise the problem
	N/A
	6. Background on Issue
	Brown particles have been found inside the prefilled syringe containing 0.9%NaCl. After investigation we can conclude that there was an interaction between the sodium chloride 0.9% and the trace metals present in the rubber stopper. The health risk associated with this issue is small as no incident or patient safety has ever been involved.
	7. Other information relevant to FSCA
	N/A

3. Type of Action to mitigate the risk*	
<p>1. Action To Be Taken by the User*</p> <p> <input type="checkbox"/> Identify Device <input type="checkbox"/> Quarantine Device <input type="checkbox"/> Return Device <input type="checkbox"/> Destroy Device <input type="checkbox"/> On-site device modification/inspection <input type="checkbox"/> Follow patient management recommendations <input type="checkbox"/> Take note of amendment/reinforcement of Instructions For Use (IFU) <input type="checkbox"/> Other <input type="checkbox"/> None </p>	
2. By when should the action be completed? 05-03-2021	Specify where critical! to patient/end user safety
<p>3. Particular considerations for: Choose an item.</p> <p>Is follow-up of patients or review of patients' previous results recommended? No</p> <p>Provide further details of patient-level follow-up if required or a justification why none is required</p>	
4. Is customer Reply Required? * (If yes, form attached specifying deadline for return) 05-03-2021	Yes
<p>5. Action Being Taken by the Manufacturer</p> <p> <input type="checkbox"/> Product Removal <input type="checkbox"/> On-site device modification/inspection <input type="checkbox"/> Software upgrade <input type="checkbox"/> IFU or labelling change <input type="checkbox"/> Other - Provide further details of the action(s) identified. <input type="checkbox"/> None </p> <p>Eg how the manufacturer became aware; brief details of relevant incidents; root cause if known; rationale for containment of problem to only affected devices; other risk mitigation or longer-term preventative action etc.</p>	
6. By when should the action be completed? 05-03-2021	Specify where critical! to patient/end user safety
7. Is the FSN required to be communicated to the patient /lay user?	No
8. If yes, has manufacturer provided additional information suitable for the patient/lay user in a patient/lay or non-professional user information letter/sheet?	
No	

4. General Information*	
1. FSN Type*	New
2. For updated FSN, reference number and date of previous FSN	N/A
3. For Updated FSN, key new information as follows:	
Please, check the syringe before use. It is necessary to destroy the syringes with presence of brown particles.	
4. Further advice or information already expected in follow-up FSN? *	No
5. If follow-up FSN expected, what is the further advice expected to relate to:	
6. Anticipated timescale for follow-up FSN	FINAL actions completed
7. Manufacturer information (For contact details of local representative refer to page 1 of this FSNJ)
