## Myrian® Safety note

Montpellier, 29th nov. 2022

Dear users,

We contact you to declare a potential patient hazard in our Myrian® software.

#### Safety issue:

By default, Myrian® hides series of types scout, dose report and other documents to make the workspace clearer and only display series that are made to be visualized by our users.

Today, if a serie contains keywords such as « Scout », « Localizer », « Surview », « LOC », « CAL », « Topogramme », « Dose Report » or « Rapport dose », in the « SeriesDescription (0008,103E) » field, it will automatically be hidden from our interface, considered as an optional serie. We have noticed that, depending on manufacturers and application engineers, the DICOM field « SeriesDescription » could include words that contain « LOC » or « CAL » even though they are series meant to be interpreted by the user (e.g. if a series contain the words « CliniCAL» or « BLOCK » in its SeriesDescription field, it will be automatically hidden).

These hidden series may lead to a delayed diagnosis from the practitioner and therefore a delayed patient care.

#### Concerned Myrian® version:

- Myrian® 2.8
- Myrian® 2.9

#### Immediate action:

#### For Myrian® distributors:

Intrasense requests that all distributors share this safety note to their final users in order to bring awareness on this safety action and ensure implementation of temporary actions until their version upgrade.

Distributors are also requested to advnowledge receipt of this safety note by filling the form in ANNEX A.

#### For Myrian® users:

DICOM standard is permissive with this field, so modality manufacturers can use it as they wish.

We recommend you to be careful by clicking on the icon hereunder to make sure you do not miss any hidden series that could be useful for your diagnosis:

All users are also requested to acknowledge receipt of this safety note by filling the form in ANNEX B.

#### Corrective action:

Our investigation performed on Myrian® has identified the root cause of this issue. Therefore, a maintenance version of Myrian® has been developed (maintenance version Myrian® 2.9.12) and will be made available for all users of versions concerned by this safety note.

We apologize for any inconvenience, and we thank you for your understanding.

#### Transmission of this safety note:

This letter needs to be passed on all those who need to be aware within your organization, or to any organization where the concerned products have been transferred.

Please transfer this notice to other organizations on which this safety action has an impact.

This letter was already sent to the French Health Authority (ANSM) as well as to the other concerned competent authorities.

Thank you for your understanding. Kind regards,

Signature
